

EVOPLANE FAMILY OF SCALES

EVOPLANE scales are very accurate, easy to use and durable.

Low maintenance costs.

Low angle ramps for easy towing on/off the scales.

Scales that weigh regional planes as well as jumbojets.

Available in 3 versions from 15 000 kg up to 30 000 kg: Evoplane SMALL, MIDI and LARGE.

EVOPLANE SCALE TECHNOLOGY

- No cables
- Accuracy ± 0.1 % of reading
- Producers declaration of conformity

TEKNOSCALE

EVOPLANE

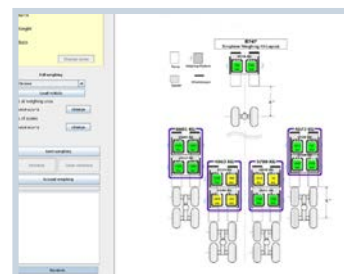

WEIGH YOUR AIRCRAFT WITH EVOPLANE SMALL,
MIDI OR LARGE.
